KO PREMIUM LAUNDRY DETERGENT

PRODUCT NUMBER 5126

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Concentrated non-phosphate laundry detergent powder blended for home and commercial laundries. Synergistic blend of surfactants, builders, anti-redeposition agents and water softeners makes colors brighter and whites whiter. Cleans economically and efficiently. Safe on all washable fabrics.

INSTRUCTIONS:

For best results consult your KO Manufacturing specialist.
Use concentrations may vary depending on type of machine,
water volume, soil load, linen type, etc.

CUSTOMER BENEFITS:

Economical
Whitens and Brightens
Biodegradable

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
