

CLOUD BASED MONITORING SYSTEM

Chemical Inventory Management

REAL INFO, REAL TIME

Because it is cloud based, this monitoring system makes it easy to check on your carwash while on the go. Quickly see car counts and inventory levels remotely. Get notified via text or email when problems occur.

ANALYTICS

Cars washed, estimated cost per car, and use per car all in one concise report. Search custom dates using WASHKOM® to drill down further.

WASHKOM® lets you see what's happening at your carwash from your phone, tablet or computer. Real time car counts and chemical levels presented in one user friendly application. This chemical management system monitors up to 18 chemical tanks, giving you cost per car and use per car data on demand. Manage your inventory in real time with WASHKOM®.

CLOUD BASED

Using a modern cloud architecture means your software is always up to date. WASHKOM® helps keep you and your team in sync across all platforms.
