

**DRUM
IN A BOX™**

INDUSTRIAL

DETERGENTS

Advantages:

- Saves Space
- Easy to Handle, Store, Stack, Mix, & Pour
- Stays Stable
- No Used Drums to Haul
- Saves Money on Freight

Each Formula Is:

- Phosphate-Free
- Not UPS Hazardous
- Biodegradable
- Non-Toxic
- VOC Compliant

HYPERSTACK™ TECHNOLOGY

Each of these formulas is an exceptional cleaner when mixed into a 55 gallon container with water. However, sometimes extremely challenging conditions call for an extremely concentrated detergent.

HYPERSTACK™ TECHNOLOGY allows operators the flexibility to strengthen or "Stack" two kits of the same formula to create a "Hyper" concentrated product without concerns about product stability.

This is especially useful for:

- Extra Heavy Cleaning Conditions
- When Operating Through Automated Systems that Deliver a Highly Diluted Final Product

Multi-Purpose Degreasers:

GENERAL

**DRUM
IN A BOX™**
