KO MANUFACTURING INC.

HYPER KLEEN GLB™

PRODUCT NUMBER 9111

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheat Modified on 2/3/2003

PRODUCT DESCRIPTION:

Hyper Kleen GLB is a generous foaming cleaner designed specifically to clean cars and trucks. It is packaged in super-concentrate form, eliminating fillers and maximizing cost-per-use efficiency. This product penetrates thoroughly to the painted surface, breaking the bond between dirt and paint both chemically and electrostatically, allowing the soil to be removed easily during cleaning. Hyper Kleen GLB can be used in hot or cold pressure units, automatic or self-serve car washes, or with hand mitting.

INSTRUCTIONS:

Apply Hyper Kleen GLB with soft, hot water at a final dilution of 1000 parts water to 1 part chemical using high pressure.

Adjust accordingly for best results. Results may vary with time of year, type of soils, type of equipment, and water quality.

CUSTOMER BENEFITS:

- Easy to use.
- Biodegradable.
- Penetrates dirt.
- Cost effective.
- Super-Concentrated.
- Generous foaming.
