KO MANUFACTURING INC.

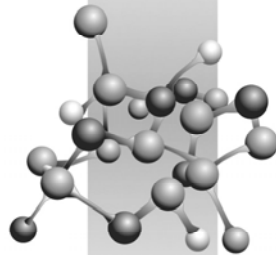

WASH 'N' DRY

PRODUCT NUMBER 9170

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheat Modified on 3/31/2004

PRODUCT DESCRIPTION:

Wash 'N' Dry is a product formulated for both the self-service and automatic car wash industries. Its unique combination of surfactants, emulsifiers and solvents break down soil build-up and road grime. Wash 'N' Dry is free rinsing and provides an instant wax-like protection with long-lasting durability in all weather.

INSTRUCTIONS:

Mix 1.5 to 2.0 ounces of Wash 'N' Dry per gallon of water (64:1-80:1) depending on soil load. For extra heavy soil, increase amount of chemical, presoak for 3-5 minutes then rinse. For best results, use with hot water (100-140F).

Suggested dilutions only. Use as a starting point. Adjust accordingly for best results.

CUSTOMER BENEFITS:

- Easy to use.
- Biodegradable.
- Great at cutting oil and grime.
- Cost effective.
- Excellent rinsing ability.
